About us

Competence in design development and trend analysis

Complete supplier of nearly all decorative surfaces

Perfect design match across all products with a broadly-based portfolio

SURTECO Asia

Established in Singapore & Indonesia in 1998. We are a direct subsidiary of SURTECO GmbH and SURTECO Group, a global leader in manufacturing decorative surfacing materials for the woodworking, furniture, HPL, panelboard and flooring industries.

SURTECO Asia is the manufacturer of DÖLLKEN edgebandings, SURTECO decor papers, finish foils, 3D foils, release papers and floor skirting systems.

With factories, service centers and distribution partners throughout Asia and the Pacific's, we can assure quick lead-times and the highest level of customer service, providing you with the best quality certified products in the industry.

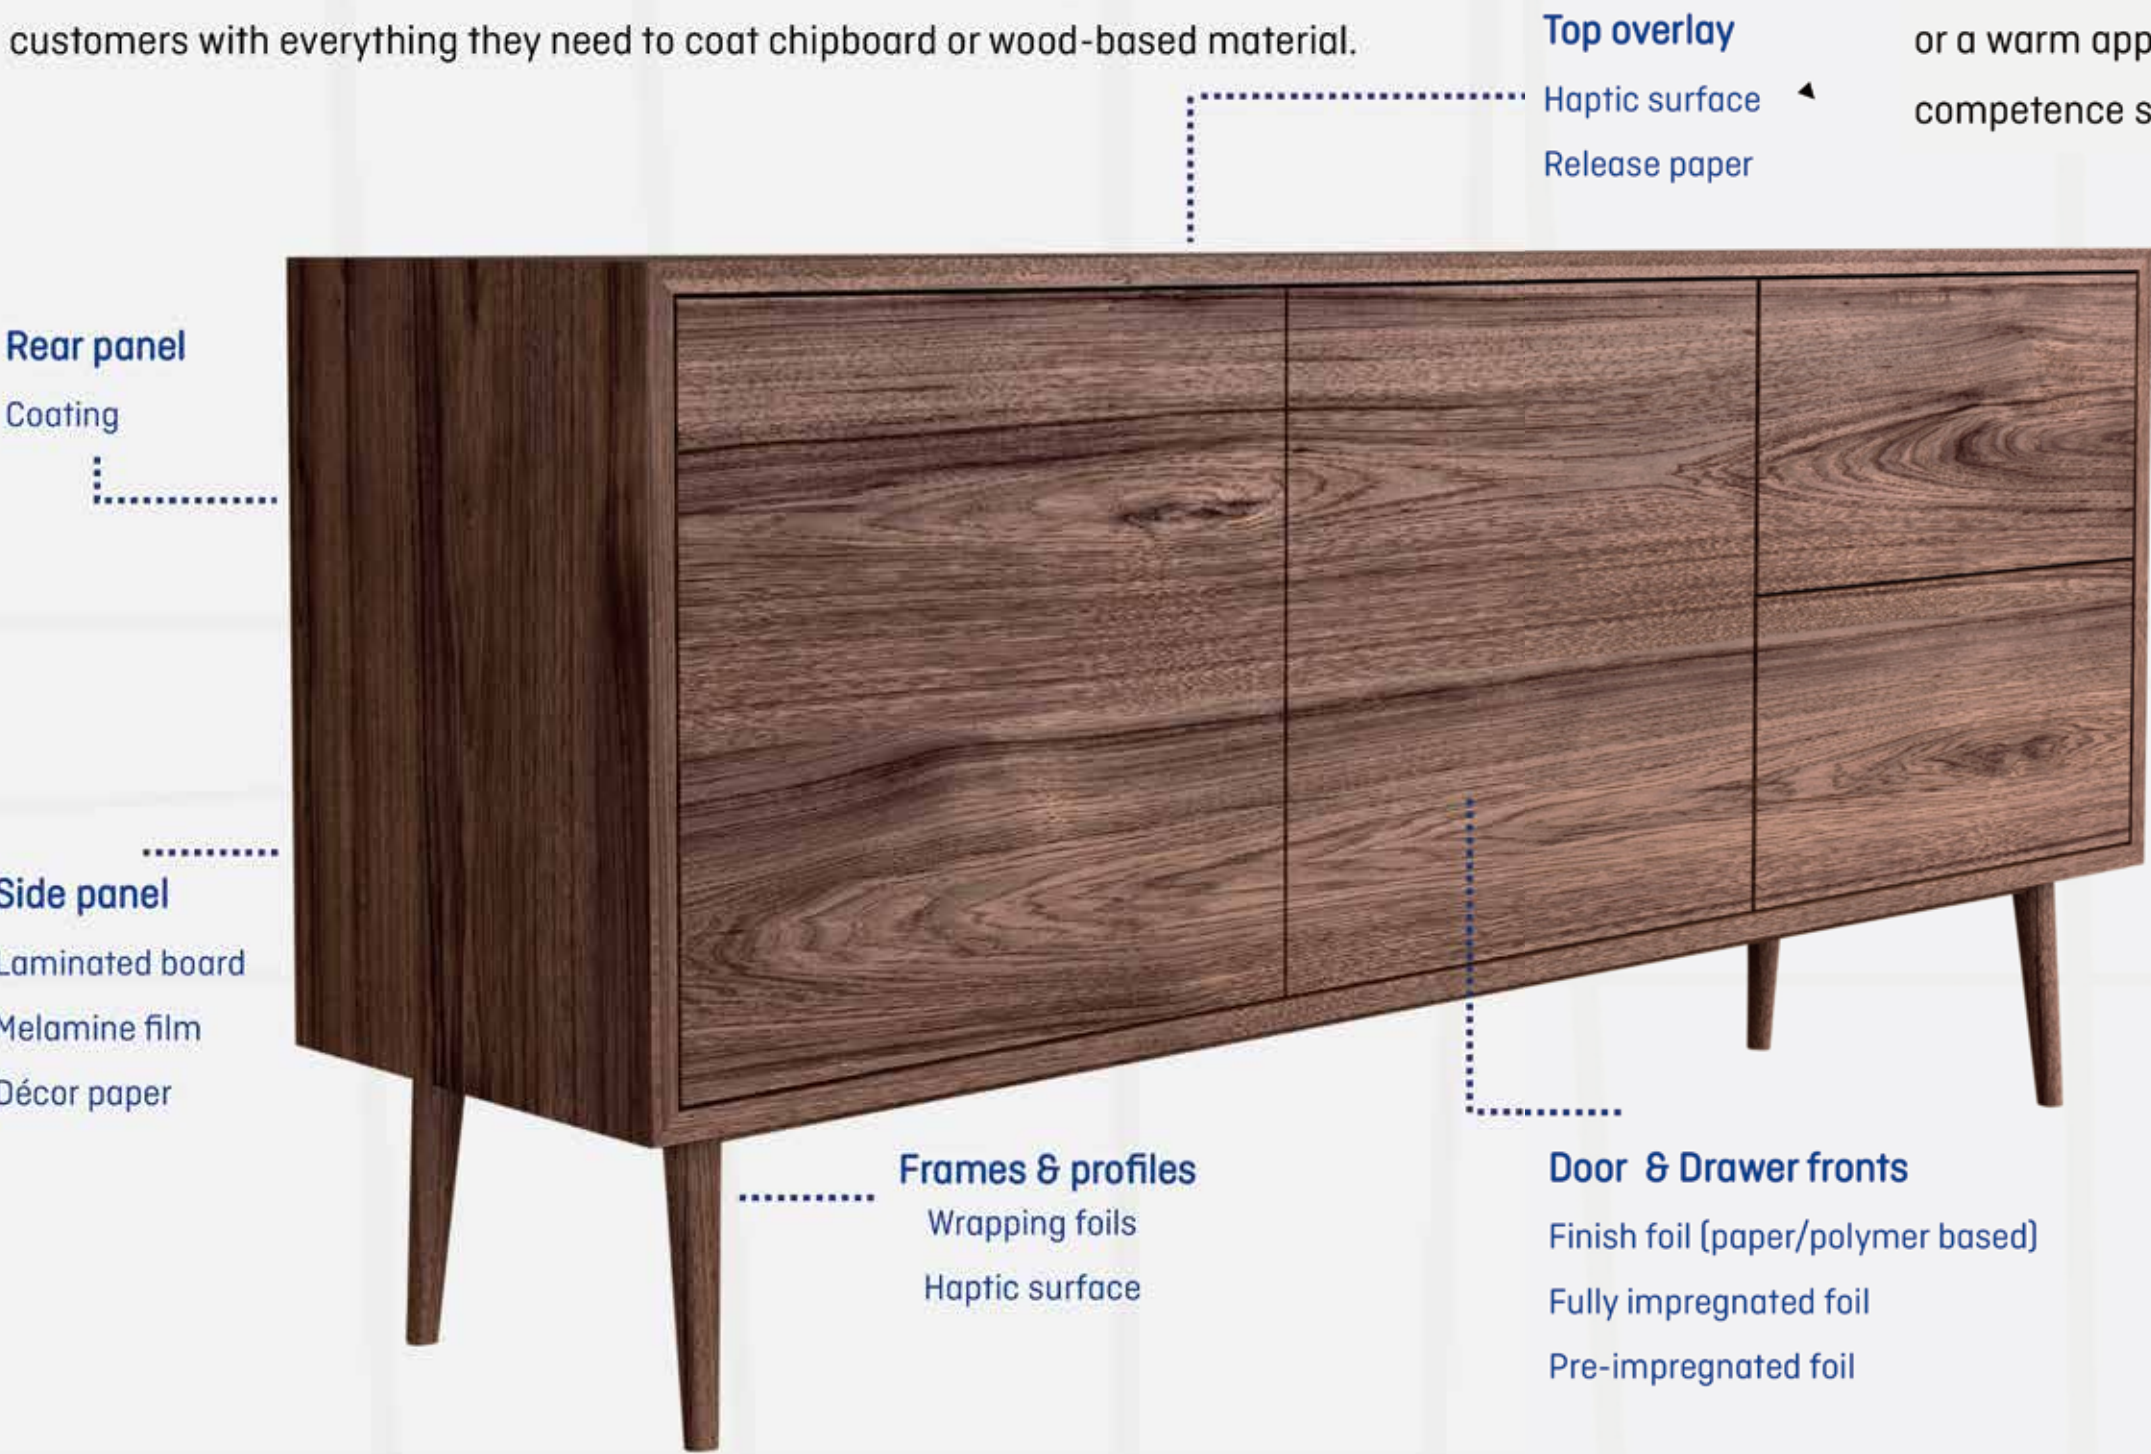

“Our long track record of experience, our technical know-how and our design competence make us the perfect full-service provider of decorative surfaces. We develop successful designs for you and implement them perfectly on our products.”

We dress furniture

The product portfolio of SURTECO Asia is the broadest in the industry and offers complete solutions for our customers. We make our customers' product successful. Décor, gloss level, haptic structures and colour are perfectly coordinated. Our comprehensive portfolio makes us an innovative and competent full-range supplier in design and technology. Thanks to our bundled expertise, we can perfectly meet the demand for harmoniously coordinated decors, structures and gloss levels. We provide customers with everything they need to coat chipboard or wood-based material.

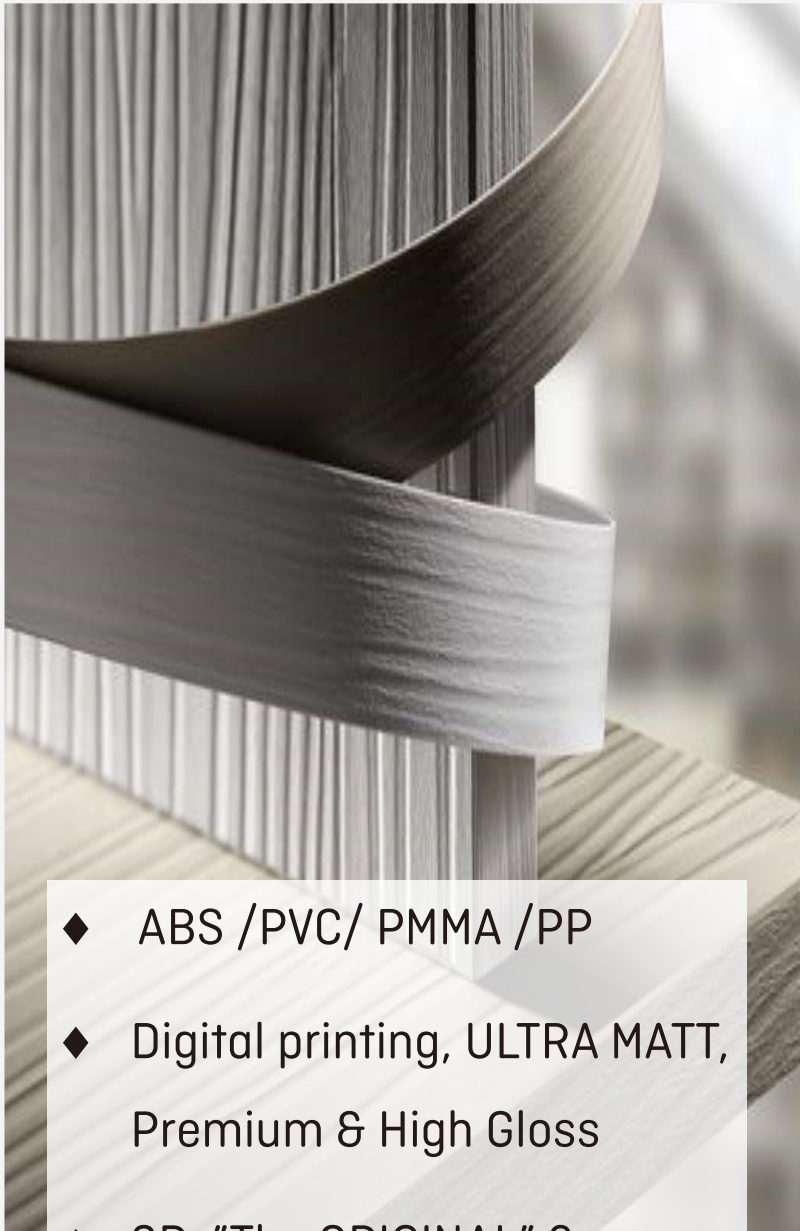

Our product for furniture, floors and doors are highly valued within the industry. In addition to their haptic and optical qualities, they also impress with surfaces. Anti-fingerprint effects and special resistance. The possibilities of tactile and visual impressions are almost unlimited. Metallic effects, 3D, Duo-Gloss with matt-gloss play, finishes from super matt to glossy, décor-synchronous haptics or a warm appearance is only an example from the SURTECO competence spectrum.

Products:	Floor skirtings
Edgebandings	Portable edgebanding machine
Décor papers	Hot melt glue
Finish foils	Edge scraper
Thermoplastic foils	
Release papers	

Edgebandings

- ◆ ABS /PVC/ PMMA /PP
- ◆ Digital printing, ULTRA MATT, Premium & High Gloss

- ◆ Fusion EDGE, Hot Air, Laser, IR, Plasma & Microwave
- ◆ 2 in 1 Compact style, End Grains & 18,000 decors

**"Perfectly matching
edgebandings, always
with harmonious
colours and textures"**

Décor papers

Inhouse décor team
creating more than
750 decors yearly

- ◆ State of the ART engraving technology
- ◆ Digital printing — 7 feet full widths
- ◆ Creative metallic prints & premium visual effects
- ◆ Unique technologies to create realistic wood features

Finish foils - paper based

- ◆ Natural haptic surfaces advanced synchronized embossing effects
- ◆ Anti-finger print resistant surfaces - ULTRAMATT
- ◆ Wrapping foils & door frame foils
- ◆ Large EX stock collection - Tecofoil speed
- ◆ Sustainable water based inks and lacquers
- ◆ High mechanical scratch & R4 chemical resistant certified

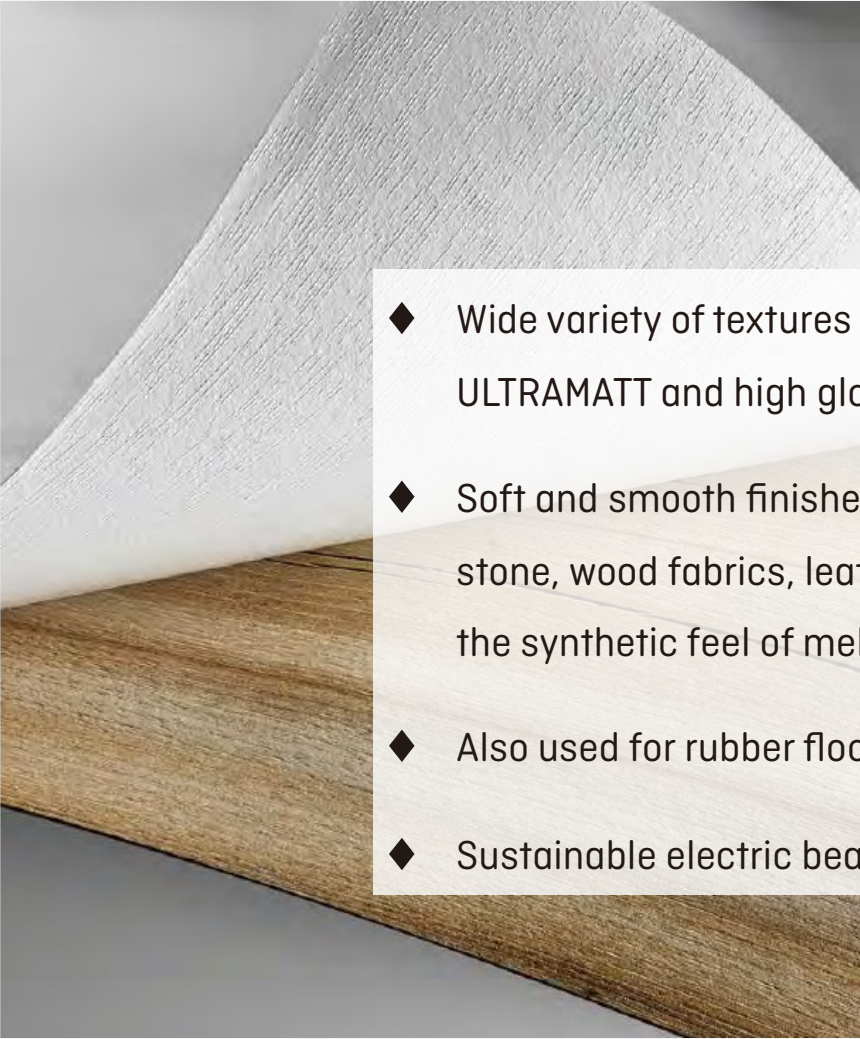

Thermoplastic foils

- ◆ Elegant decors, deep embossed textures from ULTRAMATT to High gloss finishes in 1D, 2D and 3D, in PP & PVC
- ◆ Wide stock range: 1420mm (PVC) & 1270mm (PP)
- ◆ Less telegraphing due to semi rigid foils
- ◆ ISO/DIN tested

Release papers

- 
- ◆ Wide variety of textures and gloss levels including ULTRAMATT and high gloss
 - ◆ Soft and smooth finishes to create realistic surfaces of stone, wood fabrics, leather and more that takes away the synthetic feel of melamine, CPL and HPL surfaces
 - ◆ Also used for rubber flooring and other synthetic surfaces
 - ◆ Sustainable electric beam curing and exhimer technology

Floor skirtings

- ◆ Elegant and modern shape
- ◆ Moisture resistant
- ◆ Excellent technical properties
- ◆ REACH-compliant
- ◆ Döllken hot melt adhesive application

Special rooms require special Solutions

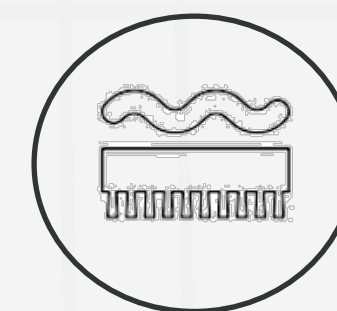

Rooms are diverse.

That is why we provide more than a product: we provide holistic décor solutions. Coming from a single source, these are always perfectly matched. With our many years of experience, our technical knowledge and our expertise in design, we are more than a full-service provider of decorative surfaces – we are also a development partner for new technologies and designs. You will always find your perfect solution with us.

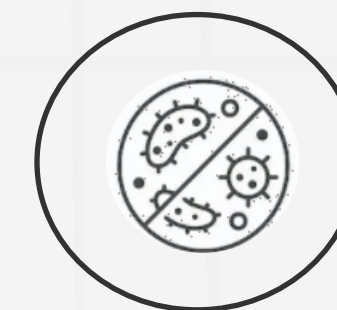

Scratch-resistant

Abrasion-resistant

Anti-fingerprint

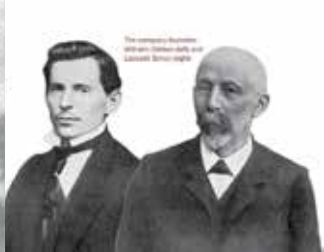

Anti-bacterial

Functional and high quality – for one of the most important spaces in everyday life.

We cater for every area of application in the kitchen: from worktops to door frontals and base units, we provide a range of suitable designs with functional surfaces: scratch - and abrasion-resistant, anti-fingerprint and bacterial. We also offer perfectly matched and coordinated edge solutions – whether that means high gloss, super matt or with contemporary embossing.

History since 1871

1871
Foundation
of fine paper mill
Felix Schoeller
und Bausch
in Neu Kaliß

1887
Foundation
of timber merchant
W. Döllken & Cie
in Essen

1965
Foundation
of Linnemann
GmbH & Co.
in Sassenberg

THE ORIGINS OF THE SURTECO GROUP EXTEND BACK INTO THE 19TH CENTURY

Two of today's predecessors, the companies Felix Schoeller und Bausch, and W. Döllken & Cie. were established during this period. A third strong mainstay started up operations in the middle of the 20th century as the company Linnemann. Following the takeover of a series of companies in Germany and abroad over the past decades and opening numerous locations worldwide, the SURTECO Group is today a company operating on the global stage.

SURTECO showered with prizes

The Red Dot is worldwide regarded as a seal of high quality product design.

The pro-K award is given to consumer products made of plastic that stand out in terms of innovation, design and, in particular, functionality.

COMPACT-STYLE, the edge for design diversity received four awards all at once.

Awarded several times: 550 m² major trade fair appearance at the interzum 2017.
