

NEW from
SURTECO

Cape Town

The calm oak décor Cape Town features understated planking, slender light flowers and small knotty buds. Clear and filigree pore outlines define the appearance and provide the décor with a stunning depth effect. The associated haptic cylinder supports this three-dimensional impression. A supplementary metallic effect further augments the texture.

Application and Tips

The well-balanced furniture décor is ideal for use on small and large surfaces, and for the door industry.

Check out the Cape Town Décor in other colours on our [Facebook page](#).
