Kartini

The Kartini furniture decor is made of tropical teak with an attractive surface. The streaky grain shows slight cracks and only a few cut flowers. With a metallic print, Kartini has a beautiful homogeneous appearance. A corresponding haptic cylinder tangibly brings the structure to light. All in all, Kartini is a somewhat calm, very modern design with a naturally elegant character.

Characteristics: Streaky, light cracks, cut flowers

Application: Furniture, caravan

Alpina

This attractive flooring design was created from exquisite pine wood. Pine trees belong to the *Pinus* species and are mainly found in the northern Mediterranean region. As is typical for pine wood, the annual rings are clearly visible. The structure with its light brushing shows an authentic depth effect. Alpina looks very appealing and noble with its beautifully grown knots, full flowers and interesting interplay of colours. This impressive flooring represents natural and simple elegance.

Characteristics: Knots, full flowers, strong annual rings, beautiful play of colour

Application: Allover flooring
