May/ Jun 2021 Edition

**NEW from  
SURTECO**

## Sunny Wood

Sunny Wood is an exquisite acacia wood with a personal touch. Styled in planks with differing widths, the flower segments are alternated with calming elements. Striking pores, an impressive play on colours, light and dark ray flecks and some rough-sawn areas define the decor image. The uniqueness of imperfection provides this furniture surface – suffused with traces of weathering and cracks – with its very special flair.

**Application:** Surface, home furniture, bedroom

Wednesday, May 5 | 09:40 am CET | interzum @home

**Closer to Nature**

Wednesday, May 5 | 03:30 pm CET | interzum @home

**D**iscover the trends of tomorrow. Every two years SURTECO publishes a trend statement as the result of its continuous trend research.

Encounters – All things exist in a context and in relation to each other. New contexts are created through new encounters because objects, light and people interact within spaces.

Encounters continually create new impressions.
