Hygge Ahorn

The expression "Hygge" originates from Scandinavia, and in Denmark it has almost developed into a philosophy of life. "Hygge" includes all areas of life and represents cosiness, wellbeing and the joy of savouring the moment. The Hygge style is also extremely popular in design and living trends. Bright, warm colours or pastel shades, materials with a natural look, clear textures and soft lighting play a major role in this ambience. Our "Hygge Maple" is absolutely predestined for this feel-good style. Full flowers, gentle transitions, small knots and wood rays present a harmonious appearance.

Characteristic: full flowers, small knots, natural play on colour.

Application: surface

San Marco

TECOPRINT

Decor reference: 10-021080

Color reference: 12034778

Application: furniture, doors, caravans, interior design

Striated and calm with meandering movements, emulating a stream in nature. San Marco is an elegant walnut decor with a gentle play of colour and refined pore pattern. The noble creation is free of knots and it features an aura of naturalness and upscale value. The characteristics are highlighted by an additional haptic and metallic cylinder. San Marco lends furniture a sophisticated look. But it is also absolutely perfect for use in interior design, and in the caravan and door industries.

OCTOBER 2021

SICAM

The SICAM is an international trade fair for components, technology products and accessories for the furniture industry.

After a break of two years, we are pleased to participate in SICAM again this year. On the **12 - 15 October 2021**, we presented a whole world of inspiration at SICAM. We have created modern and exciting color worlds for you, all perfectly coordinated as finish foil, thermoplastic foil, decor paper or matching edgebanding.
