Norfolk

Rushes or reeds were the template for this creative decor. The design has been named after Norfolk, a county in Great Britain with wonderful reed landscapes. This design appeals with its linear form. Norfolk styled in light shades creates a very harmonious effect and is ideal for use as a background decor – composed in powerful hues it presents a wonderful play on colours and transforms Norfolk into an eyecatcher. An associated haptic cylinder also supports the visual depth effect with tangible tactile appeal.

Application: Furniture, kitchen, living area and interior design
