

Fusion Edge by SURTECO Australia

Fusion, by definition, involves the joining of two or more elements, resulting in the formation of a single entity characterized by an unbreakable bond.

Do you need an edge without a visible join?
Our solution is called FUSION EDGE. The visually join free connection of panel and edge requires no additional hot-melt adhesive and works with all common joining technologies and heat sources: in addition to plasma, laser, and NIR technology, FUSION EDGE is also ideally suited for Hydroforce and hot-air processing.

Explore the new range

The absence of glue contributes to a clean line, preventing the accumulation of dirt and contamination, thereby ensuring the enduring visual appeal of your project for years to come.

The colour of the functional layer is the same as the edge itself, making visible glue lines a thing of the past. Aging of the hidden glue joint is practically unknown as the functional layer is tightly bonded to the edge body.

Benefits at a glance:

- Perfect join free aesthetic
- Ideal adhesion with low energy consumption
- Suited to laser, plasma, NIR, Hydroforce and hot-air processing
- Higher production reliability through quality
- One edge for all seamless connection technologies
- All widths & thicknesses available (thicknesses from 0.6 to 3.0mm)

Item Number	Description
116953	FE2310U PAINTABLE EDGE 200M
116954	FE2110U WHITE STP 200M
116955	FE2110U TASMANIA OAK WM (BG)
116956	FE2110U RURAL OAK NATURAL (L)
116957	FE2110U PRIME OAK WM (BG)
116958	FE2110U ELEGANT OAK CHALK (L)
116959	FE2110U TITANIUM (BG)
116960	FE2110U NOTAIO WALNUT WM (BG)
116961	FE2110U ANTICO OAK WM (BG)
116962	FE2110U ANGORA OAK WM (BG)
116963	FE2110U ESTELLA OAK WM (BG)
116964	FE2110U COASTAL OAK WM (BG)
116965	FE2110U BOSTON OAK WM (BG)
116966	FE2110U FLOR WALNUT WM (BG)
116967	FE2110U CONCRETE FORMWOOD CK
116968	FE2110U BOTTEGA OAK WM (BG)
116969	FE2110U HAVANA OAK WM (BG)
